Port-Republicain - Haiti - On June 13, 1799, England was an older kingdom, but the United States of America was only 23 years old, when General Thomas Maitland of England, Dr. Andrew Stevens of USA and General Dominique Francois Toussaint of Haiti signed the greatest Tripartite Agreement of the Western Hemisphere. President John Adam's 1800 and 1801 Open-for-Business Presidential Resolutions for Haiti's Port-Republicain, Cap-Francois and later a UK and USA Naval Blockade to all French Vessels. The Haitian Army, supported by two (2) great Powers went to work and won the war by killing more than 23,000 soldiers and over 20 generals of the French Armed Forces. England took control of Lower Canada, USA received a great deal from France in the Louisiana and Florida acquisition. Regarding Haiti, the loss of over 100,000 was too much to bear or to talk about: Fortunately for UK and USA, Haiti won the war, territories and Independence on November 19, 1803.

As of June 13, 2021 to June 13, 2030, Haiti will start a US\$10,000,000,000 race to construct Infrastructures for a governmental system called Universal Federal Democracy and the creation of 2,500,000 jobs in the constitutionally required Haitian Regional and Provincial Military System. 222 years after the Tripartite Agreement of 1799, signed by UK, USA and Haiti to stop France and Spain expansion of slavery in the Americas. The new Tripartite Universal Federal Democracy of Haiti's called for a President elected for four (4) years as the Head of the Federal Executive Council, a Vice-president as the President of the Senate and the Committee on the Reconstruction of Haiti, a Prime Minister as the Head of the new 18 Ministers' Federal Form of Government, 10 Regional Governors, 10 Regional Assemblies, 30 Provincial Councils of Supervisors, 150 Mayors and Municipal Councils made by Sections Chiefs from all 800 Districts to be elected by the People on December 5, 2021.

*The truth of the matter is the following:* "Can Haiti, after 222 years of saving mankind from selling men, women and children into slavery, save Democracy by introducing a simple Touch Screen Facial-Voting-System with Biometric ID capability for those who do not even know how to READ ?" As of Sunday December 5, 2021 the People of Haiti might just do it again. "This time by saving democracy from Voting Frauds and turning True Voting Power to the people of the Western Hemisphere and perhaps, the entire Human Race."
